THE ALL-IN-ONE PROFESSIONAL CLEANING TOOL SYSTEM

THE SWOBBIT® CLEANING SYSTEM

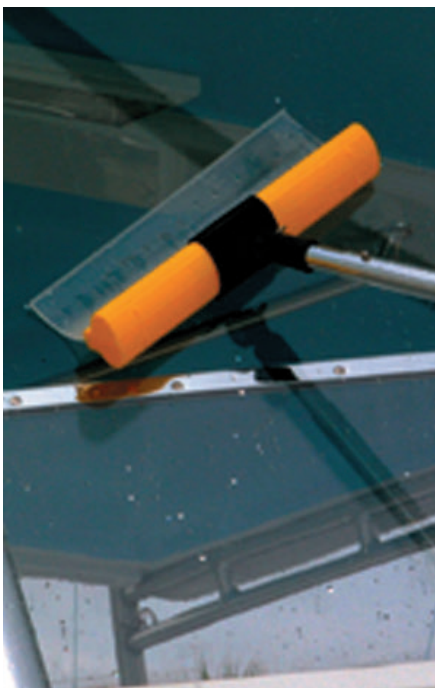

The Swobbit® Cleaning System is a high-quality professional range of cleaning tools, an all-in-one system to meet all on board cleaning needs. The Perfect Pole™ saves valuable storage space by only requiring one pole to achieve many operations with quick-change snap-on heads. The range includes over 20 different accessories from deck brushes, drying mops, squeegees, soft wash tools, swivel plates, boat and mooring hooks to choose from. The Swobbit® system has been designed to save time, space and of course money and is a more efficient way to clean!

THE PERFECT POLE™

The strongest and easiest to use telescoping and fixed length poles ever made.

Patented Insta-Just™ internal tracking system, with the exclusive Uni-Snap™ quick-release mechanism, makes extending and collapsing the Perfect Pole™ quick and foolproof, eliminating frustrating alignment problems. The button will pop up in the next hole every time. Changing accessories is a snap!

- Exclusive teardrop shaped pole makes it up to **67% stronger** than other aluminium handles
- **No pole bowing** even when fully extended!
- Ergonomic design is easier to hold and less tiring to use
- Accepts all Swobbit® System **Uni-Snap™ accessories** (plus adaptable to all ACME/screw threaded head systems) ensuring a quick-releasing, positive locking and no slip connection
- Manufactured from custom extruded 6463 T5 and 6063 T8 anodized aluminium producing the strongest pole on the market with **superior corrosion resistance**.

SW 45640.....	2'-4'	Telescoping Handle (61 - 122 cm)

VUPLEX® PLASTIC CLEANER

VuPlex® is an easy and effective way to clean, protect & polish all clear and coloured plastics. Previously, conventional plastic cleaning products have proven less than satisfactory. Existing cleaners are often messy, ineffective and/or difficult to use. Many products actually contain chemicals or abrasives that can damage the surface of plastic.

Introducing the solution

- VuPlex® effortlessly removes stains that other cleaners won't touch, by applying a micro-thin layer of protectant, sealing the porous surface.
- The polished finish makes the plastic resistant to debris, oil, scratches and yellowing. It also makes fine scratches less visible.
- Water and other contaminants are repelled from the surface giving added protection. The residual film is also safe on food preparation surfaces.
- The anti-static properties help to repel dust and abrasive materials.

VuPlex® can be used on:

- Acrylics, polycarbonates and plastic composites, including glass
- Clear PVC windows, bimini panels and blinds
- Instrument panels, electronic devices and touch screens
- Mobile phones and hand held audio devices
- Goggles and eyewear
- Fibreglass and gelcoats
- Plastic-based paint systems on multiple surfaces
- Hatch covers, port holes and inspection covers
- Safety helmets and visors

VuPlex® works on countless plastic products, preventing premature wear while helping them to look their best. VuPlex® produces a shiny, cleaner, more lustrous finish with no smears or smudges. VuPlex® makes coloured plastics vibrant, clear plastics virtually transparent and plastic paints gleam like new. VuPlex® cleans, restores and protects interiors and exteriors.
